

WT-500

by OKAYO-Taiwan

- ⦿ 40 transmission frequencies
- ⦿ small, handy and easy to use
- ⦿ slim plastic casing with LCD screen
- ⦿ automatic channel lock

Small, modern and easy to operate. Weighing in at just 70 g, this model is incredibly light. It makes up to 40 group guides possible simultaneously.

40 transmission channels enable parallel group guides. The group size can be changed as required. An automatic channel lock prevents visitors from leaving the group by mistake.

The illuminated LCD screen displays the choice of frequency range, channels and battery status.

With a reach of up to 100 metres, the WT-500 system is therefore particularly intended for sizeable groups, tours through large spaces or use outdoors.

In addition to the NiMH battery, the system can also be run on a 1.5 V battery and is therefore well suited for continuous use.

Frequencies

The range of the OKAYO group guidance system of up to 100 m is dependent on where it is used, e.g. the architecture of the space. Each group selects its own frequency to ensure an interference-free experience. Up to 40 channels (863 - 865 Mhz) are available for this.

Storage

Space-saving and handy: the case is not only a stylish way to transport the devices, but it is also practical – with space for up to 25 charging bays fitting the transmitter and receivers. The orderly way to charge and store: the 19" charging unit offers space for up to 50 devices.

Application fields

- indoor and outdoor tours
- ideal for places with high visitor numbers
- multi-lingual tour offerings
- easy to use for young and old alike

Charging station case HDC-525
(for 25 devices)

19" charging unit HDC-550 (for 50 devices)

Technical information

Dimensions:	Length 2,4cm Width 4,0cm Height 9,7cm
Weight:	70g (transmitter) 70g (receiver) weight incl. battery
Operating temp.:	-10° to +50° C
Screen:	illuminated digital LCD display
Microphone:	3.5 mm stereo jack for a external microphone
Headphone jack:	3.5 mm stereo jack
Range:	approx. 100 metres in the open
Max. volume:	80 dB
Battery:	1.2 V 2000mAh Ni-MH battery or 1.5 V alkaline battery
Operating time:	9 to 20 hours (depending on the type of operation)
Charging time:	approx. 4 hours
Certificates:	CE-certified and checked by TÜV Rheinland for compliance with ISO 9001-2000. R&TTE permits its use in all EU nations FCC,RoHS
Guarantee period:	24 months guarantee

Basic equipment

- Headset microphone HM-50A or plug-in microphone LM-90A (each 3.5mm)
- Charging station case HDC-525 (for 25 devices)
- 19" charging unit HDC-550 (for 50 devices)
- NiMH battery, 1,2V 2000mAh
- Belt clip

Accessories

- Single-ear headphone
- Hand-held microphone EJ-501TM
- Carry strap N-30
- Optional: Printed logo
